SERIOUS ACCIDENT AT OLD DOMINION

George Printz Sustains Fracture of Skull and May Lose His Life

George W. Printz, employed at the Old Dominion concentrator, met with an accident yesterday forenoon, which in all probability will result fatally. While adjusting the automatic sampler his head was caught in the machinery and he sustained a fracture of the skull at the base of the brain.

No one witnessed the accident but Charles Hansen, an employee, noticing that the feed had been cut off from the sampler, went to see what was the matter and found Printz unconscious. Printz was removed to the company hospital and at a late hour last night it was reported that he was still unconscious and little hope was entertained of his recovery.

Mr. Printz has resided here about two and a half years and was formerly connected with the assay office. His health becoming impaired, he went to California two months ago, returning six weeks ago, and at his own request was given employment at the concentrator. Printz was a competent man and well liked by his associates.

An Ounce of Prevention

Is worth a pound of cure. There are many poor sufferers, consumptives, who are hopeless of getting well—who, if they had taken care of themselves, would now be well. A cough is the foundation of consumption. Ballard's Horehound Syrup will cure that cough. Mrs. S., Great Falls, Mont., writes: "I have used Ballard's Horehound Syrup in my family for years—my children never suffer with coughs."
